

Sky condition notes for May 10, 2008 (at the mobile Kanpur east site):

11:37 (all times IST): 20% Alto Cu but sun unobscured at Terra overpass

11:50 ~20% thin stratiform clouds to the west (none near the sun; AltoCu evaporated)

12:20 ~30% cloud fraction but no clouds obscuring the sun

12:33 Sun obscured bu AltoCu; ~65% total cloud fraction

13:10 Nearly overcast (~90%) at Aqua overpass; sun obscured

13:17 ~85% cloud fraction; thin AltoCu and scattered lower altitude Cu

13:34 ~50% cloud fraction Alto Cu and Cu; sun possibly unobscured but thin cloud is difficult to distinguish in haze conditions
